

OTRX 21

HIGHWAY-DRIVABLE LOCOMOTIVE

LOCOMOTIVE POWER ANYWHERE

Driving production when everything else fails.

Finally! The OTRX21 delivers locomotive power when and where you need it. As the only highway-drivable locomotive, your teams can avoid time-consuming permitting and get on the road to where they are needed – fast.

With the ability to haul 21 loaded railway cars in either direction, the OTRX21 delivers serious power at a fraction of the cost of traditional locomotives.
